# MOBILE AUDIO

.....

For over 40 years Rockford Fosgate® has made lifestyle audio products that deliver the ultimate experience in cars, boats, and recreational vehicles. Rockford continues to be a leader in the audio industry by designing and engineering purpose built products to connect enthusiasts to their music and machine. Creating components that deliver high performance sound for the most demanding listener is what drives Rockford to continually elevate the listening experience.

Truly a line designed by fanatics for fanatics, our mobile family of products are developed by the same people that use them in their everyday lives. Living the lifestyle and being able to interact with our customers gives our design and engineering groups a unique perspective to be able to deliver top quality products that perform to the Rockford Standard.

**WHETHER YOUR PURPOSE IS TO HAVE THE  
BEST OF THE BEST OR TO SIMPLY UPGRADE  
YOUR STOCK SET UP, ROCKFORD FOSGATE  
PURPOSE BUILDS AUDIO FOR YOU. THE  
POWER, PUNCH, AND PRIME SERIES ARE  
LOADED WITH FEATURES TO HELP YOU  
ACHIEVE THE AUDIO EXPERIENCE THAT  
BEST SUITS YOU.**

---

# P O W E R

◆ The Power family of products is built using the highest grade of materials and components available. They are designed for those customers who want not only the best products, but the best sound possible from their audio systems. If you are a self-proclaimed Superuser of audio, then the Power family is for you. ◆

# S E R I E S

# P U N C H

◆ The name that started it all, our Punch family of products represents the heart and soul that is Rockford Fosgate. Perfect for the person looking to build an amazing sound system without needing to break the bank to get it, the Punch line delivers that signature Rockford sound every day. ◆

# S E R I E S

# P R I M E

◆ Whether you're new to audio or on a limited budget, the Prime family of products is a perfect choice for that first audio system. Designed with much of the same technology as its bigger siblings, the Prime line provides amazing sound quality and output at a no frills kind of price tag. ◆

# S E R I E S

P R O D U C T   H I G H L I G H T

**T1000X5ad**  
The Power T1000X5ad is an all-in-one amplifier that packs a magnitude of power into its compact 5-Channel design. Not only does this amp have plenty of output, it features Rockford's C.L.E.A.N. technology, simplifying the setup and making sure you get all the power, without any of the distortion.

**T750X1bd**  
This Power T750X1bd amplifier really packs some serious power in its compact design. Utilizing Rockford's C.L.E.A.N. technology, it's easy to maximize your sound. Full throttle, full volume - this amp stays cool with its fan cooling, no matter how hard you push it.

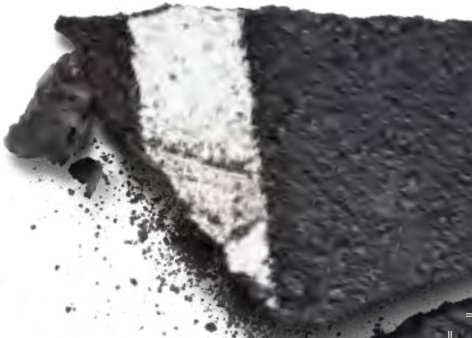

# POWER COMPACT CHASSIS AMPLIFIERS

Our Power compact chassis amplifiers take both the elements of the full size models and our latest technologies, creating a smaller footprint design without sacrificing power or performance. Using our proven Class ad and bd circuits allow the amplifiers to be over 40% smaller while producing more power than comparable full size models.

- + CLEAN technology for a fast and accurate set-up
- + Efficient design for minimal electrical impact
- + Compact size for maximum space savings
- + Dual fan cooling design eliminates dangerous heat buildup
- + Models ranging from 400 to 1000 watts

## POWER FULL CHASSIS AMPLIFIERS

Rockford engineers designed our Power series Class ad and bd amplifiers to deliver unprecedented power capability and performance. Combine that with our Constant Power Circuit Technology and these amplifiers produce more power when you want it at the frequencies you need it most.

- + Class ad and bd designs deliver power efficiency without power output loss
- + High grade components ensure unmatched sound quality capability
- + Constant Power circuitry delivers more power output when you need it most
- + High mass, cast heat sinks keep amps cool for maximum play time
- + Models ranging from 500 to 2500 watts

P R O D U C T   H I G H L I G H T

**T2500-1bdcp**

When the goal is maximum power and bass, the Power T2500-1bdcp amplifier delivers just that. With it's patented Constant Power technology, the amp will actively adjust output power based on your speaker and subwoofer demand. With superior heat dissipation, you'll never worry about the music stopping.

**T1000-4ad**

The Power T1000-4 1,000 watt amplifier will fuel your speakers with instant power resulting in amazing sound quality from your system. This amplifier also features our Punch EQ technology, which gives the control to tailor your system by boosting the high and low frequencies.

P R O D U C T   H I G H L I G H T

**T4652-S**  
Built for audiophiles who are looking for true audiophile sound, the Power T4652-S component system was made for you. The speakers and tweeters produce exceptionally accurate sound without sacrificing any power handling. With it's crossover that's effortless to install, you can get your system set up and back on the road in no time.

**T1650**  
When you don't have the space for a complete component system, the Power T1650 coax speakers still provide the output and sound quality you've come to expect from Rockford Fosgate. The tweeters produce bright, crisp highs delivering detail in your music that you didn't know was there.

## POWER SPEAKERS

.....

Built on years of knowledge in acoustic engineering, Rockford delivers a family of speakers that is industry leading. From our class leading T4 series of audiophile components down to our T1 coaxial speakers, the Power family focuses on providing you the best musical experience you've ever had.

- + Audiophile grade materials deliver superior sound quality
- + Component and coaxial models available
- + Bridge mounted tweeters allow for improved midrange response
- + Power handling from 40 to 150 watts RMS
- + Multiple sizes from 4" to 6.75" round and 4" x 6" to 6" x 9" oval

# POWER SUBWOOFERS

.....

Power series subwoofers have always been known for class leading performance, power handling and output capabilities. This time our speaker engineers far surpassed expectations by not only recreating the T2 series of woofers from the ground up, but also introducing our newest additions to the family; the T3 19" and T1 Slim series of woofers.

- + Engineered to deliver high output sound
- + Torture tested to ensure long life and performance
- + Custom designed components for maximum bass
- + Power handling from 550 to 3000 watts RMS
- + Multiple sizes from 10" to 19"

P R O D U C T   H I G H L I G H T

**T3S1-19**

Not your typical superwoofer, our flagship 19" T3S1-19 Power subwoofer will impress even the biggest bass-head. With its massive voice coil and motor structure, this woofer can provide all the earth-shaking bass you crave, all while still reproducing authentic sound for the most demanding fanatics.

**T1S1-10**

Big bass doesn't always need to come in a big package. This T1S1-10 Power slim series subwoofer definitely delivers full size sound. Because of its slim design, it's easy to fit in tight locations.

P R O D U C T   H I G H L I G H T

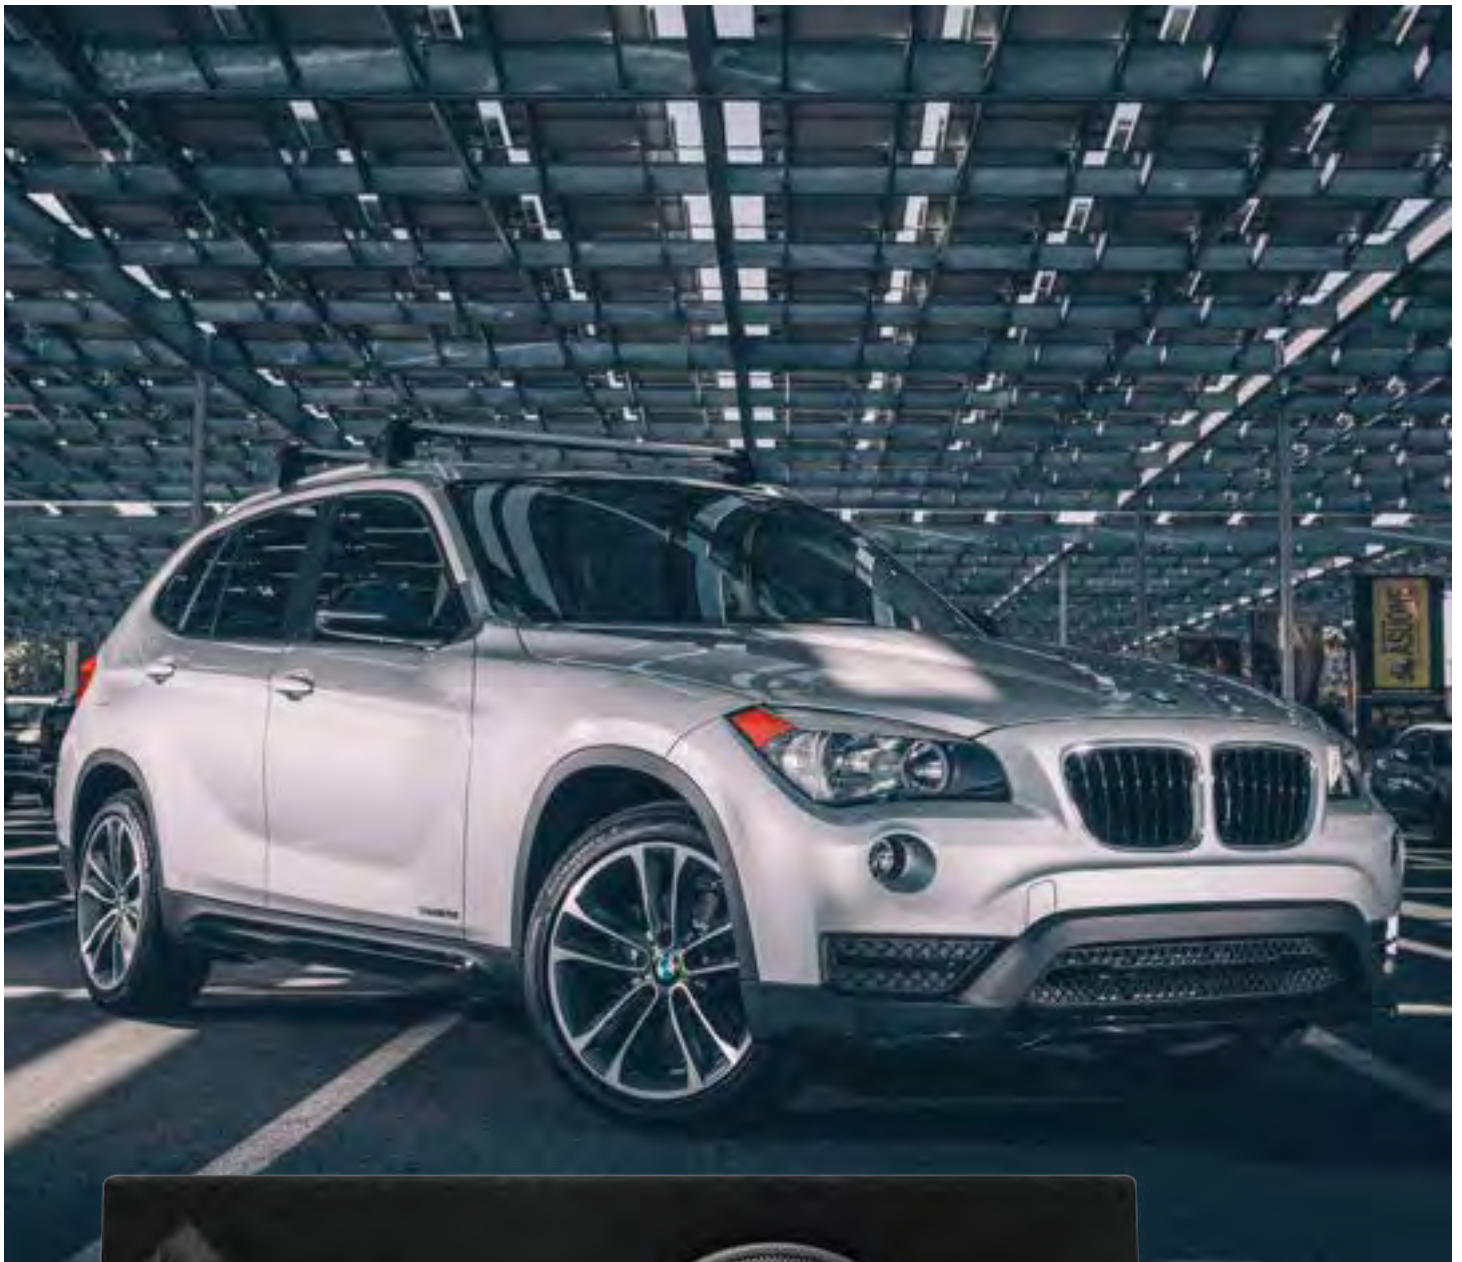

**T1S-1X12**  
You may be tight on space, but it doesn't mean you can't add bass. The T1S-1X12 sealed enclosure offers our 12" PowerSeries subwoofer that's made to perform in confined spaces. The enclosure is finished with black carpet to still give you a custom look.

**T1S-1X10P**  
If you are in need of a hard-hitting slim subwoofer system, we have you covered. Optimized for maximum bass, this T1S-1X10P Power ported slim enclosure handles 500 watts of power and even though it may be small in size, it's not in sound.

## POWER ENCLOSURES

.....

Designing and building a custom enclosure is not always easy or possible, so we have created our Power loaded enclosures featuring our T1 Slim series of woofers. We have designed these enclosures to maximize the capabilities of the woofers while maintaining a slim profile design that fits not only trucks but a wide variety of other vehicles as well.

- + Utilizes our T1 Slim woofer for high output bass
- + Slim line design allows installation flexibility for all vehicles
- + High grade materials and construction prevent enclosure failure
- + Power handling from 500 to 600 watts RMS
- + Available in 10" sealed + ported and 12" sealed

# SIGNAL PROCESSORS

.....

While the task of installing audio products in today's hi-tech vehicles can be daunting to say the least, Rockford has developed vehicle integration products that make the job a little easier. If you are trying to simply integrate an amplifier to drive that new Rockford woofer, we offer a number of signal converters and line driver devices to get the right signal to your amp. If you're taking your system to that next level and really want to dial it in, then you need to look at our signal processor. With its input and output flexibility and processing capabilities, the processor can take your audio system from pretty good to concert worthy in no time

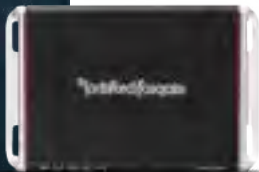

P R O D U C T   H I G H L I G H T

**DSR1**  
Now, advanced tuning is easy with the DSR1 all-in-one digital sound processor. The DSR1 allows you to upgrade to aftermarket components while integrating your factory systems like steering controls, voice commands, hands-free phone and satellite radio. Fine tuning is also made easy with the Perfect-Tune App, which allows tuning to be done all on your mobile device.

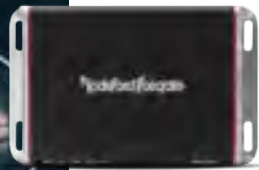

P R O D U C T   H I G H L I G H T

**PBR400X4D**

This PBR400X4D Punch 4-channel amp packs plenty of power in it's compact class-d design. Utilizing Rockford's Boosted Rail technology, maximizing your sound is made easy. The small footprint of this amplifier allows for installation almost anywhere.

**PBR300X2**

Designed to meet your demanding audio needs when space is at a premium. Created for vehicles that have limited space or charging systems, like electric vehicles, the Punch PBR300X2 amp efficiency gives you the output you still require.

## PUNCH PBR AMPLIFIERS

.....

The PBR series is a small footprint amplifier that produces a lot of power, but doesn't put a strain on a vehicle's electrical system. We developed our patented "boosted rail" circuit that stores energy and then releases it when the music demands it.

- + Efficient design for minimal electrical impact
- + Ideal for mobile and motorsport applications
- + Compact size for maximum space savings
- + 400 watt models available in mono, 2 and 4-Channel versions

## PUNCH AMPLIFIERS

Building on the legacy of when the first Punch amp was introduced, we completely redesigned the series with a sleek new style, thanks to our cast aluminum chassis with brushed finish and stealth top mount controls. Also, our onboard C.L.E.A.N. setup circuit tells you if and when your music is distorting, simplifies the setup of the amp and gets you listening to your music that much sooner.

- + CLEAN technology for a fast and accurate set-up
- + Efficient design allows for high output power
- + High mass heat sink design eliminates dangerous heat buildup
- + Models ranging from 300 to 1,000 watts

P R O D U C T   H I G H L I G H T

**P1000X5**  
The P1000X5 1,000 watt Punch amplifier is the one-and-only amplifier you will need to run your entire system. The removable sleek top plate allows access to the control panel, for easy set-up and tuning. The amplifier is everything you have come to expect from the Punch series with it's brute power and quality.

**P1000X1bd**  
When your subwoofers are begging for more, this amp delivers. Designed with the super-efficient class-bd technology, the Punch P1000X1bd drives 1,000 watts of power through your system. Paired with the PLC2 remote, you can adjust the bass, all with a turn of a knob.

P R O D U C T   H I G H L I G H T

**P165-SI**  
The Punch P165-SI component system delivers that signature Rockford sound in a super versatile component design. The 6.5" speaker's internal crossover makes for easier installation while still supplying you quality sound.

**PPS4-10**  
If loud isn't loud enough, check out our Punch Pro 10" mid-range drivers. Designed for extra output, these speakers are made for those who are truly trying to have the loudest vehicle on the street.

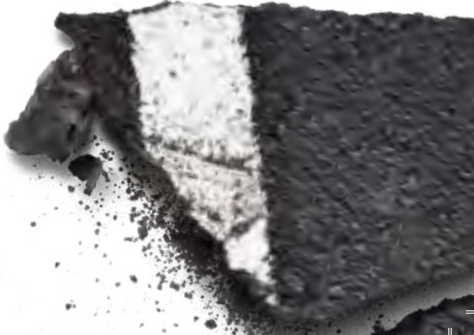

# PUNCH SPEAKERS

.....

The Punch family of speakers are ideal if you're someone who really likes to "feel" your music. When you're ready to upgrade and you really want something that can deliver crisp, clear vocals, and have the low end response to back them up, then look no further.

- + Component and coaxial models available
- + Designed for high output and high quality sound
- + Power handling from 20 to 350\* watts RMS
- + Multiple sizes from 3.5" to 10" round and 4" x 6" to 6" x 9" oval

*\*Punch Pro 10"*

# PUNCH SUBWOOFERS

.....

Built on a long standing history of performance, the Punch series of woofers can deliver not only output to satisfy you when you want it loud, but maintain a level of sound quality for when you really want to “listen” to your music.

- + Engineered to maximize sound performance and bass output
- + Torture tested to ensure long life and performance
- + Power handling from 200 to 600 watts RMS
- + Multiple sizes from 8” to 15” in standard and shallow designs

P R O D U C T   H I G H L I G H T

**P3D4-15**

When you want to be sure to hit those low bass drops, adding the Punch P3D4-15 15" subwoofer to the back of your ride will do just that. This subwoofer will be sure to outperform other more expensive subwoofers in the industry, without breaking the bank.

**P3SD4-12**

Whether you own a truck or car where space is at a premium, the Punch P3 shallow woofer gives you the versatility to add fuller sound to your vehicle. Adding a 12" woofer to any vehicle will complete your audio system and give you that punch you're wanting.

P R O D U C T   H I G H L I G H T  
▼

**P300-10T**

When nothing seems to fit under your truck seat or in your trunk, we have the perfect solution. The new Punch P300-10T enclosure gives you the opportunity to add bass where you thought you not might be able to. Even though this loaded enclosure may look small, it still packs plenty of low end power.

**P500-12P**

If you need to quickly add bass to a system or want to alleviate the hassle of separate amplifiers and subwoofers, then the P500-12P is the right one for the job. This 500 watt ported enclosure system is all-inclusive, so you only need to run power, ground and a signal and you can get back on the road!

## PUNCH ENCLOSURES

.....

We have created a line of Punch loaded enclosures in both powered and non-powered versions that are designed for high output and maximum performance. We even offer an under seat powered option when space is really tight. If you're looking to add the "Punch" to your car easily, then we have the enclosure you're looking for.

- + High grade materials and construction techniques ensure long life
- + Slim line and wedge designs allow installation flexibility for all vehicles
- + Power handling from 150 to 500 watts RMS
- + Available in 8" to 12" single, dual and amplified woofer models

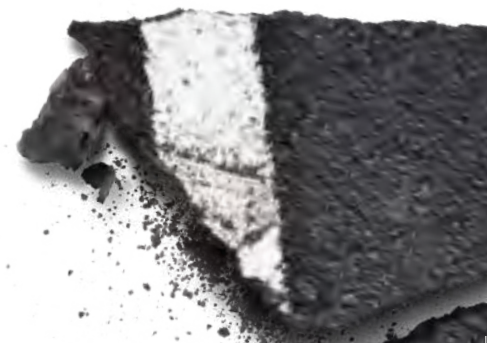

# PRIME AMPLIFIERS

.....

Many of the design innovations that we've developed over the years, from how to deal with heat to maximizing the efficiency of the power supply, have made their way into the Prime amps. This has allowed us to create a line that is not only high quality, but also affordable.

- + CLEAN technology for a fast and accurate set-up
- + Multiple models for system design flexibility
- + Efficient circuit design reduces electrical system impact
- + Models ranging from 250 to 1200 watts
- + Smart features for easy setup

P R O D U C T   H I G H L I G H T

**R2-1200X1**

Built with many of the technologies of its more expensive counterparts, the all new Prime R2-1200X1 amp delivers big power without breaking the bank. With C.L.E.A.N. technology on board, it's now even easier to set up. The class-d technology also makes this amp extremely efficient, reducing the demand on your charging system.

**R2-750X5**

A full system solution for when you want to add multiple speakers and subwoofers. The Prime series R2-750X5 5-channel amp pumps out 750 watts of power, giving you everything you need to have a great sounding system.

P R O D U C T   H I G H L I G H T  
▼

**R165-S**  
The Prime series R165-S component system is a new generation of factory replacement speakers that delivers you that authentic Rockford Fosgate sound. Easy to install with surface and angle mounting options, allowing you to get back on the road in no time.

**R169X3**  
These 6"x9" Prime full-range speakers offer Rockford Fosgate sound quality at a fantastic value. Perfect for replacing factory speakers, these high sensitivity speakers don't need a lot of power to still sound excellent.

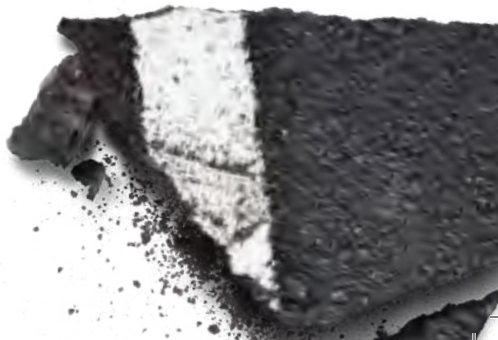

# PRIME SPEAKERS

.....

Are you tired of listening to your factory speakers rattling away inside your doors? Then you need to check out the Prime family of speakers. Designed with an ultra-lightweight poly-cone and dome tweeter, our Prime drivers are efficient enough to hook up directly to your factory head-unit for instant sound improvement.

- + Component and coaxial models available
- + Designed for direct OEM fitment capability
- + Power handling from 30 to 65 watts RMS
- + Multiple sizes from 4" to 6.75" round and 6" x 8" to 6" x 9" oval

PRIME

# SUBWOOFERS

.....

Looking to add some bass to your existing audio system or wanting to design your first full audio system from the ground up? Our Prime series of woofers are built using many of the same speaker technologies that Rockford has made famous for over 30 years and you won't break the bank buying one.

- + Engineered to maximize sound performance and bass output
- + Ideal for customers looking to build their first system on a budget
- + Power handling from 200 to 250 watts RMS
- + Multiple sizes from 10" to 12" in standard and shallow designs

P R O D U C T   H I G H L I G H T

**R2D2-12**  
Car Audio Fanatics who want Rockford Fosgate quality can rely on the Prime series 12" subwoofers to get the job done. The dual voice coil provides awesome installation flexibility, so the drivers can pump out the bass that you've come to expect from Rockford.

**R2SD2-10**  
When you have no space for bass, our Prime series R2SD2-10 10" shallow subwoofer can help satisfy your need for low frequency music. These drivers can fit in tight spaces due to an elevated motor structure that reduces speaker depth. These shallow subwoofers are optimal for sealed enclosures.

P R O D U C T   H I G H L I G H T

**R2-2X12**

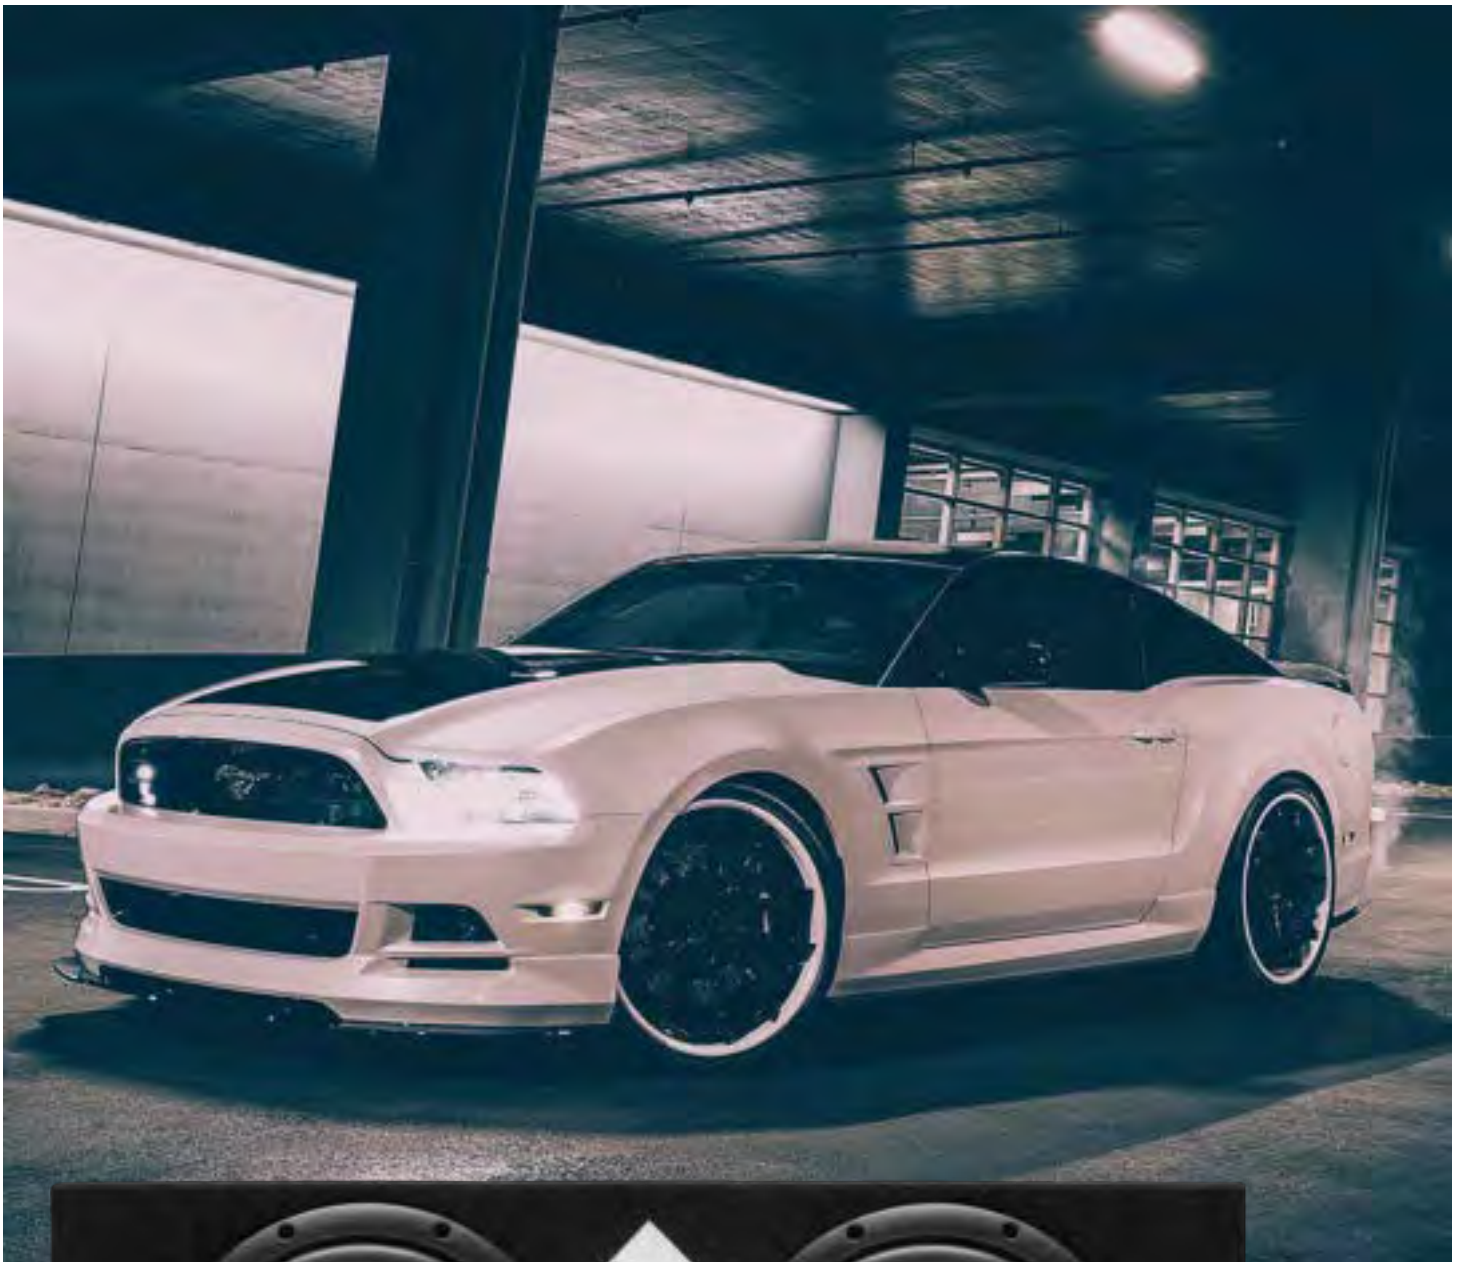

The Prime R2-2X12 is a dual 12" sealed enclosure that provides great low bass at an incredible value. The enclosure is constructed with durable MDF and covered in resilient high-density carpet, so you look as good as you sound.

**R2S-1X10**

When you have no space for bass, our Prime series R2S-1X10 10" shallow loaded enclosure is sure to be a perfect fit for your ride, and your budget. These shallow loaded enclosures can fit in tight spaces due to the slim-line depth.

## PRIME ENCLOSURES

.....

Built with the same level of quality and performance standards as our other enclosures, the Prime series of loaded woofer enclosures are perfect for that instant bass on a budget. Whether you need a slim style enclosure or traditional wedge style, our Prime enclosures give you tremendous boom for the buck.

- + High grade materials and construction techniques ensure long a lifespan
- + Slim line and wedge designs allow installation flexibility for all vehicles
- + Power handling from 200 to 500 watts RMS
- + Available in 10" to 12" single and dual woofer models

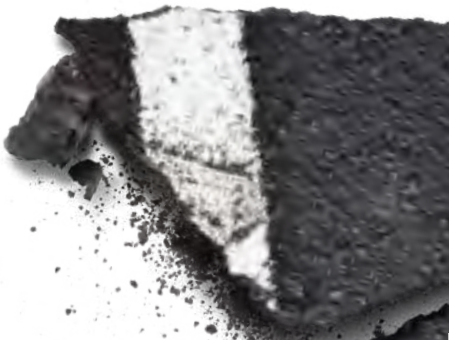

# ACCESSORIES

.....

When it really comes down to it, nothing in a car audio system works without the accessories. Rockford is proud to offer a full line of installation accessories to make sure your system is hooked up right. All of our wire is full AWG specification size; meaning you get all the copper you're paying for and not extra insulation like some of the other brands out there. We offer full amplifier installation kits along with a variety of signal cables, fuse and distribution blocks and high quality capacitors to make sure your voltage is kept at peak performance.

*\*Get an additional 1-year warranty when you purchase the recommended wiring kit with your amplifier*

P R O D U C T   H I G H L I G H T

**RFK4**

Our amp power kits give you premium wire to make sure your install performs at its best. When you purchase one of our amp kits, it also extends the warranty for an additional year on your Rockford amplifier.

**PLC2**

Remote Level Control offers remote level control of the amplifier. Once the on-board gain control is set, the PLC2 can attenuate the level from that point. Cable and mounting hardware included. For use with select 2013 and newer PUNCH and POWER amplifiers.

# MARINE AUDIO

Wake to waves, salt or fresh water. No matter the boat, submerge yourself in marine audio that's built to stand up for life on the water.

# MARINE AUDIO.

For over 40 years Rockford Fosgate® has made lifestyle audio products that deliver the ultimate experience in cars, boats, and recreational vehicles. Rockford continues to be a leader in the audio industry by designing and engineering purpose built products to connect enthusiasts to their music and machine. Creating components that deliver high performance sound for the most demanding is what drives Rockford to continually elevate the listening experience.

Truly a line designed by fanatics, for fanatics, our Marine family of products are developed by the same people that use them in their everyday lives. Living the lifestyle and being able to interact with our customers gives our design and engineering groups a unique perspective to be able to deliver top quality products that perform to the Rockford Standard.

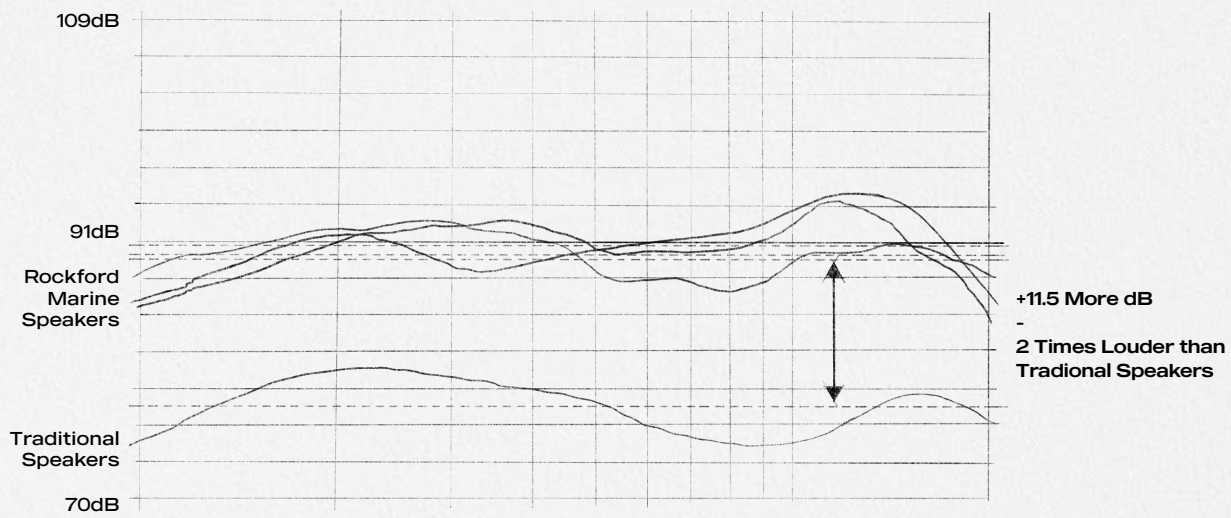

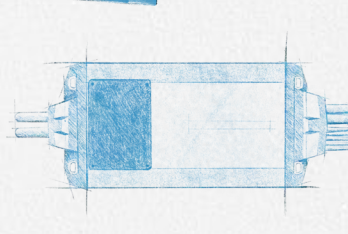

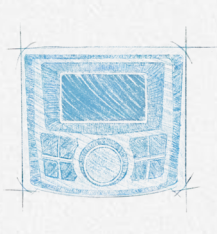

# DESIGN PHILOSOPHY.

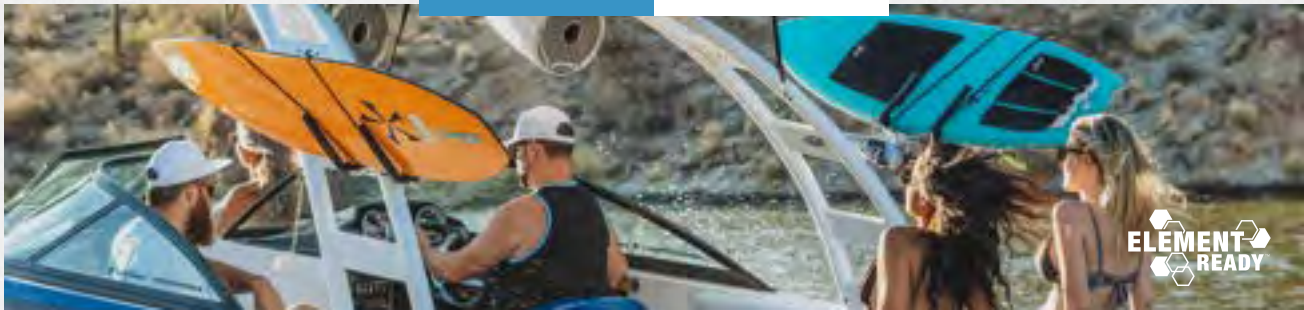

Rockford Fosgate design and engineering ethos is simple. Purpose built products for your purpose. Our Marine Audio lineup has been designed from the ground up and specifically engineered for the marine environment. We provide class leading sound quality and clarity for the open air environment. Never limited to a single audio sweet spot, our systems were engineered to sound good everywhere and anywhere on the boat.

Exceptional performance, output and clarity in the open air environment.

# TRUE MARINE GRADE.

Our Marine products are built from high grade materials, and put through intense environmental testing. All the components are protected against harsh outdoor elements like Water, UV, Vibration, and Salt Corrosion.

**SPEAKERS**

We use high grade UV resistant materials for our speaker housings and grilles and make sure that they meet or exceed ASTM testing standards. We also subject them to salt spray (fog) testing to make sure that exposure to the environment will not cause issues with corrosion, both from a hardware or electrical connection standpoint.

**SOURCE UNITS**

Rockford's PMX series of source units and remotes are fully tested against UV radiation degradation as well as tested to IPX water and dust intrusion standards. We also fully test the units for ever-changing environmental conditions such as temperature extremes, as well as vibration testing to make sure they can take a bump and keep performing like a Rockford product should.

**SUBWOOFERS**

We use high grade UV resistant materials for our subwoofer housings and grilles and make sure that they meet or exceed ASTM testing standards. We also subject them to salt spray (fog) testing to make sure that exposure to the environment will not cause issues with corrosion, both from a hardware or electrical connection standpoint.

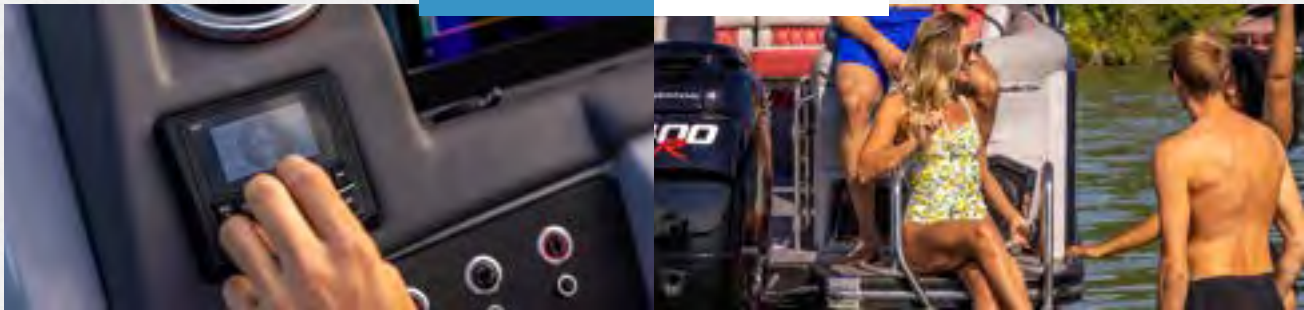

**AMPLIFIERS**

Our Marine amplifiers have not only the capabilities you expect a Rockford amp to have, but we have designed them to stand up to the environmental conditions you are likely to subject them to. With corrosion resistant stainless steel hardware and two-part epoxy coated circuit boards, these units are designed with you in mind. Whether on the lake or ocean, these amplifiers are ready for an adventure.

DECK PARTY™

TOTAL CONTROL  
FROM ANYWHERE  
ON THE BOAT.

Meet Deck Party. Our source units provide easy control for everyone on the boat. Whether you're in the captains chair, the state room, or a swim platform, enjoy an easy and intuitive audio experience. Change volume control, stereo grouping, Bluetooth® pairing and power options, all to make the day on the water that much more fun.

ROCKFORD FOSGATE + RAYMARINE INTEGRATION

ROCKFORD FOSGATE + GARMIN INTEGRATION

Certified NMEA-2000® connectivity with all major MFD providers (PMX-CAN + PMX-8BB or PMX-5)

Full Custom GUI integration with Raymarine MFD Units (Volume, Track, Mute, Source, Sub Level, EQ and Zone Control)

Core connectivity with Garmin, Simrad, Navico, and Lowrance models (Volume, Track, Mute, Zone Control)

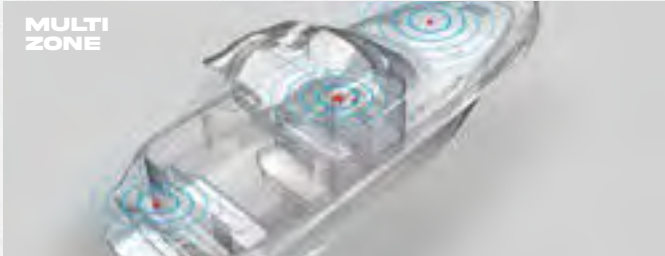

Grouping allows you to control multiple zones from any connected Rockford Fosgate remote.

Independently control volume through each zone on your boat. You can also select all volume to adjust them at the same time.

Control each grouped stereo and enjoy being able to turn them on or off without turning off the entire system.

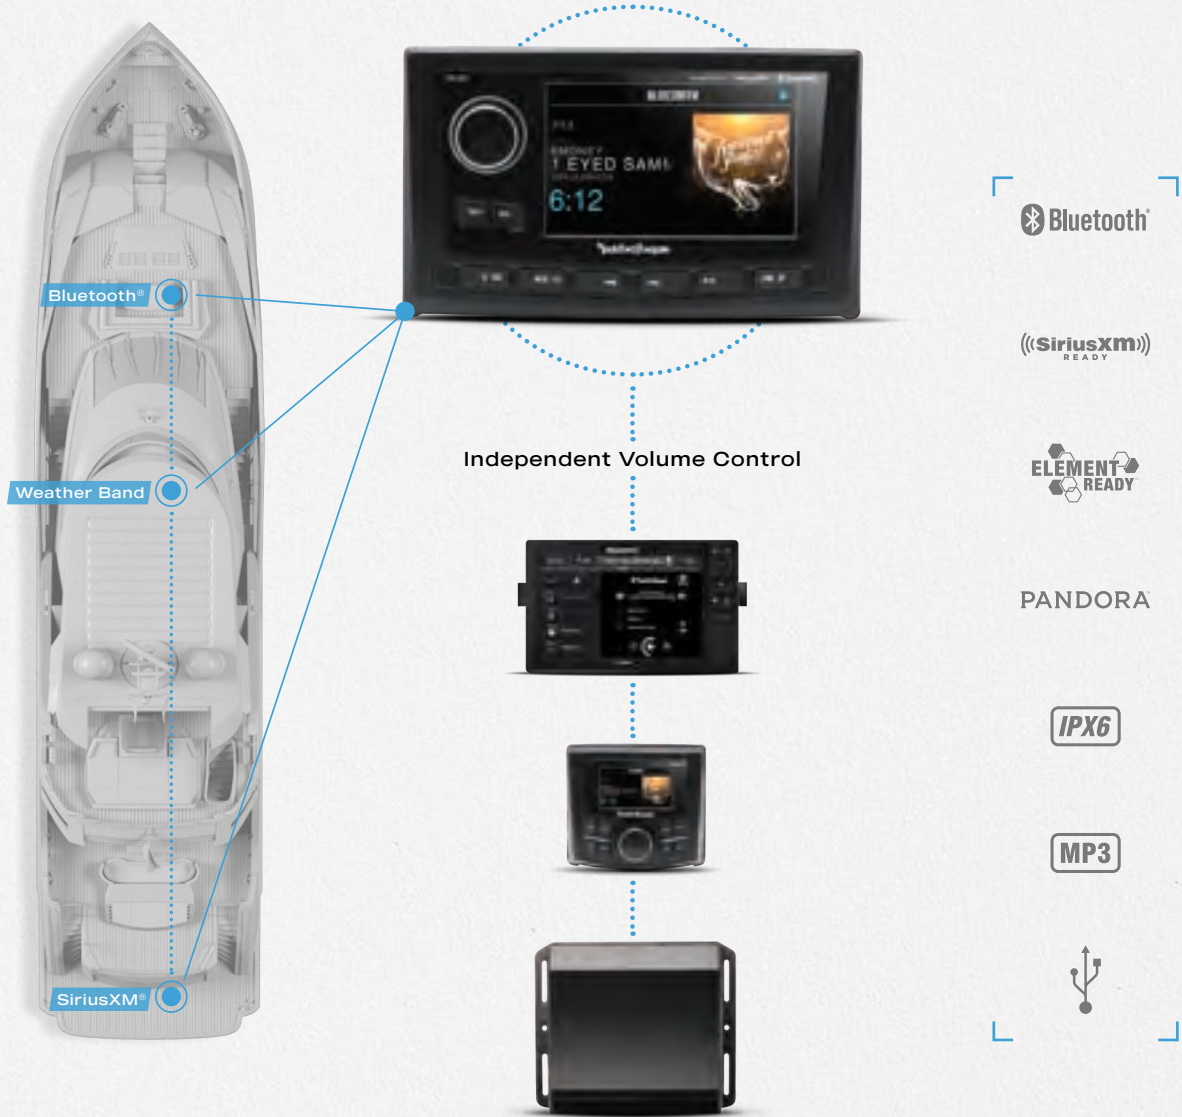

Create, control and dial in each zone for a personalized experience.

# MULTI ZONE + MULTI SOURCE.

With Rockford Fosgate's source units on deck, you can truly customize your on board audio experience. Creating multiple zones allows everyone to dial in their personal experience. For example, you can be streaming SiriusXM® on the stern, while the captain is getting the latest weather updates, all while the guests are up in the bow listening to their favorite song through Bluetooth®.

Adjust your own bright, wide, and limitless lighting experience with the Rockford Fosgate Color Optix™™ plug-and-play controller and App.

Integrated Deutsch/Amphenol™connections provide industry leading marine plug-and-play connectivity and flexible installation options.

Whether it's operating your audio system in the cockpit or listening and controlling different sources and volume in the salon, flybridge or staterooms, Rockford has a PMX source unit to meet all your zone applications.

Makes switching between series and parallel, as simple as selecting between 1 and 4 ohms when using the D2 woofers and 2 and 8 ohms when using the D4 woofer, without any additional wiring.

# TECHNOLOGY

When you make a purchase that bears the Rockford Fosgate name, you are receiving the technology, engineering, and innovation that has taken over three decades to hone.

## SOURCE UNITS

All components are protected against harsh outdoor elements like Dust, UV, Temperature, Water, Corrosion & Vibration.

The Free Lossless Audio Codec is an audio format similar to MP3, but lossless, meaning that audio is compressed in FLAC without any loss in quality.

Water projected in powerful jets from any direction shall have no harmful effects.

Built-in Bluetooth provides wireless audio streaming with Apple and Android devices.

## AMPLIFIERS

All components are protected against harsh outdoor elements like Dust, UV, Temperature, Water, Corrosion & Vibration.

C.L.E.A.N. (Calibrated Level Eliminates Audible Noise) is a patented circuit with in/out clip LEDs to help match a source to amp and optimize output.

Water projected in powerful jets from any direction shall have no harmful effects.

Constant Power is a patented circuit topology that provides instant delivery of output power over varying impedance loads.

## SPEAKERS

All components are protected against harsh outdoor elements like Dust, UV, Temperature, Water, Corrosion & Vibration.

The Vertical Attach Surround Technique significantly increases a speaker's effective radiating cone area up to 25%.

Water projected in powerful jets from any direction shall have no harmful effects.

Klippel is a speaker certification program allowing us to deliver the best possible speaker performance.

## SUBWOOFERS

All components are protected against harsh outdoor elements like Dust, UV, Temperature, Water, Corrosion & Vibration.

The Vertical Attach Surround Technique significantly increases a subwoofer's effective radiating cone area up to 25%.

Water projected in powerful jets from any direction shall have no harmful effects.

Klippel is a speaker certification program allowing us to deliver the best possible subwoofer performance.

# RECOMMENDED SYSTEMS.

No matter the boat, Rockford provides the best in class on water experience. We have created an outline of recommended systems for each marine platform.

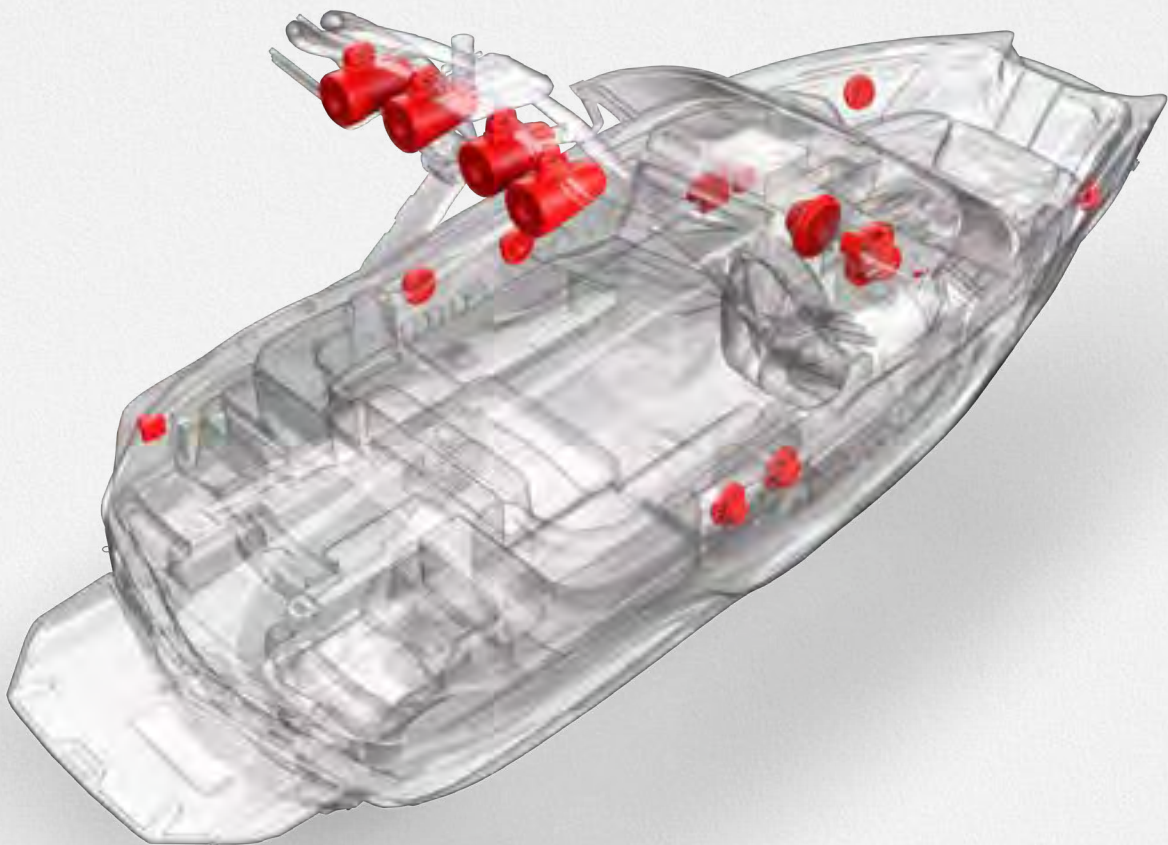

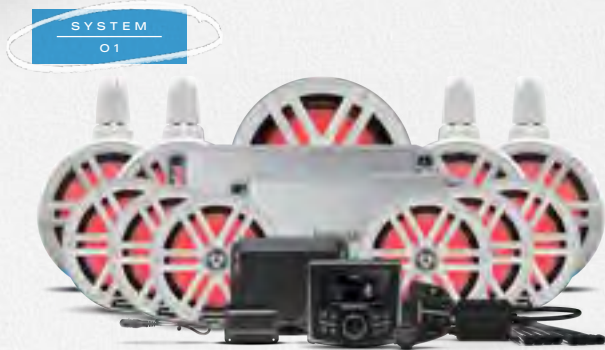

WAKE / SURF / SKI

SYSTEM OVERVIEW.

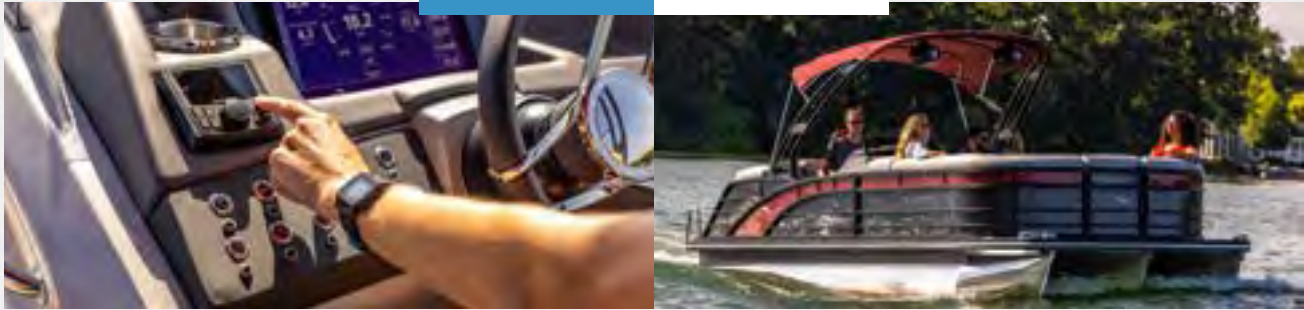

Source Units: (1)PMX-8BB/(2)PMX-1R/(1)PMX-USBP  
Speakers (Pairs): (2)M2-8/(2)M2-8H/(2)M2WL-8H  
Subwoofers: (2)M2D4-12I  
Amplifiers: (1)M5-800X4/(1)M5-1500X5  
Add on's:  
NMEA Adaptor for MFD Integration: (1)PMX-CAN  
Color Optix Control: (2)PMX-RGB/(14)RGB CABLES  
Steering Wheel Remote: (1)PMX-BTUR

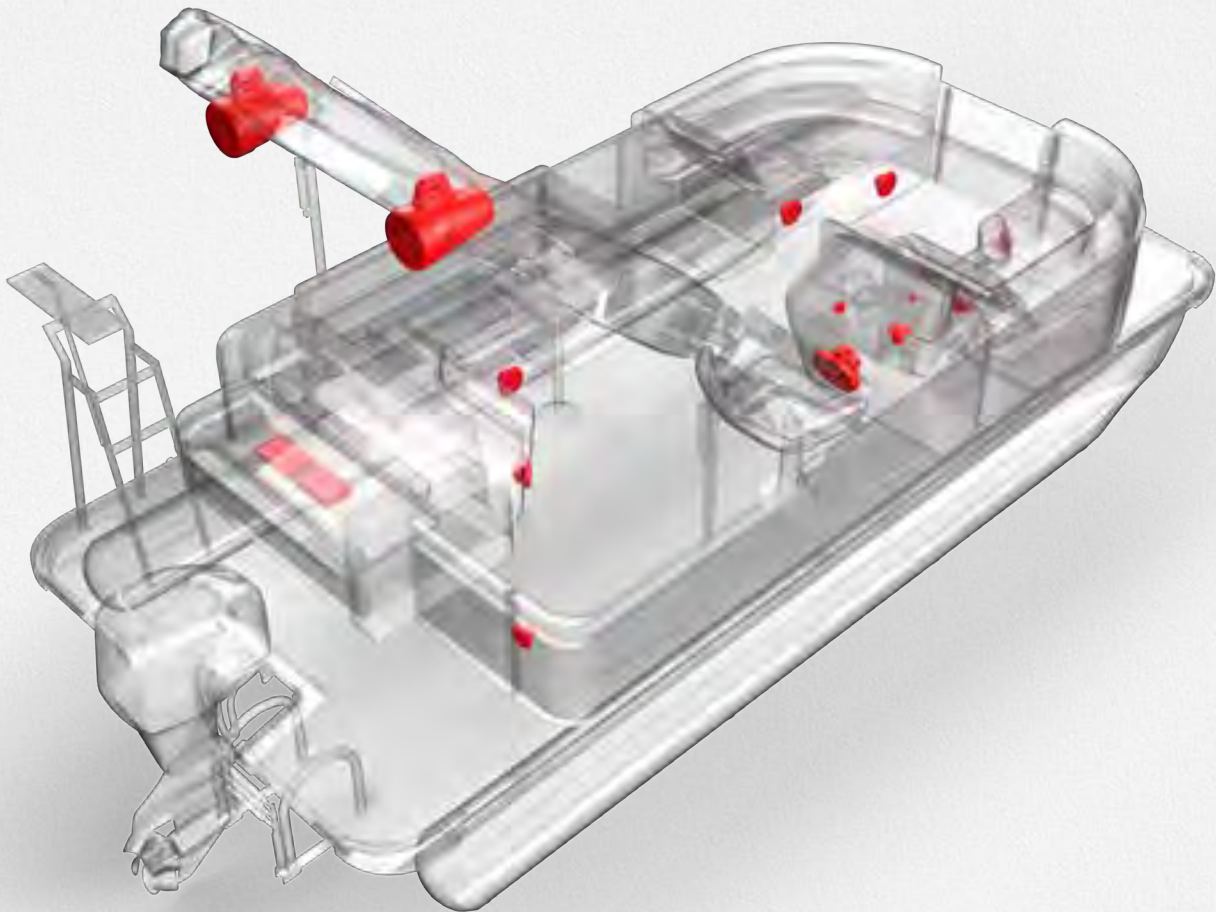

Source Units: (1)PMX-8BB/(2)PMX-1R/(1)PMX-USBP  
Speakers (Pairs): (3)M2-8/(2)M2WL-8  
Subwoofers: (1)M2D4-12I  
Amplifiers: (1)PM600X4/(1)PM1000X5  
Add on's:  
NMEA Adaptor for MFD Integration: (1)PMX-CAN  
Color Optix Control: (2)PMX-RGB/(14)RGB CABLES  
Steering Wheel Remote: (1)PMX-BTUR

PONTOON

SYSTEM OVERVIEW.

SYSTEM  
02

Source Units: (1)PMX-2/(1)PMX-1R/(1)PMX-USBP  
Speakers (Pairs): (2)M2-65/(1)M2-8  
Subwoofers: (1)M2D4-12I  
Amplifiers: (1)PM1000X5  
Add on's:  
Tower Package: (1)PM600X4/(2)M2WL-8  
Color Optix Control: (1)PMX-RGB/(7)RGB CABLES  
Steering Wheel Remote: (1)PMX-BTUR

SYSTEM  
01

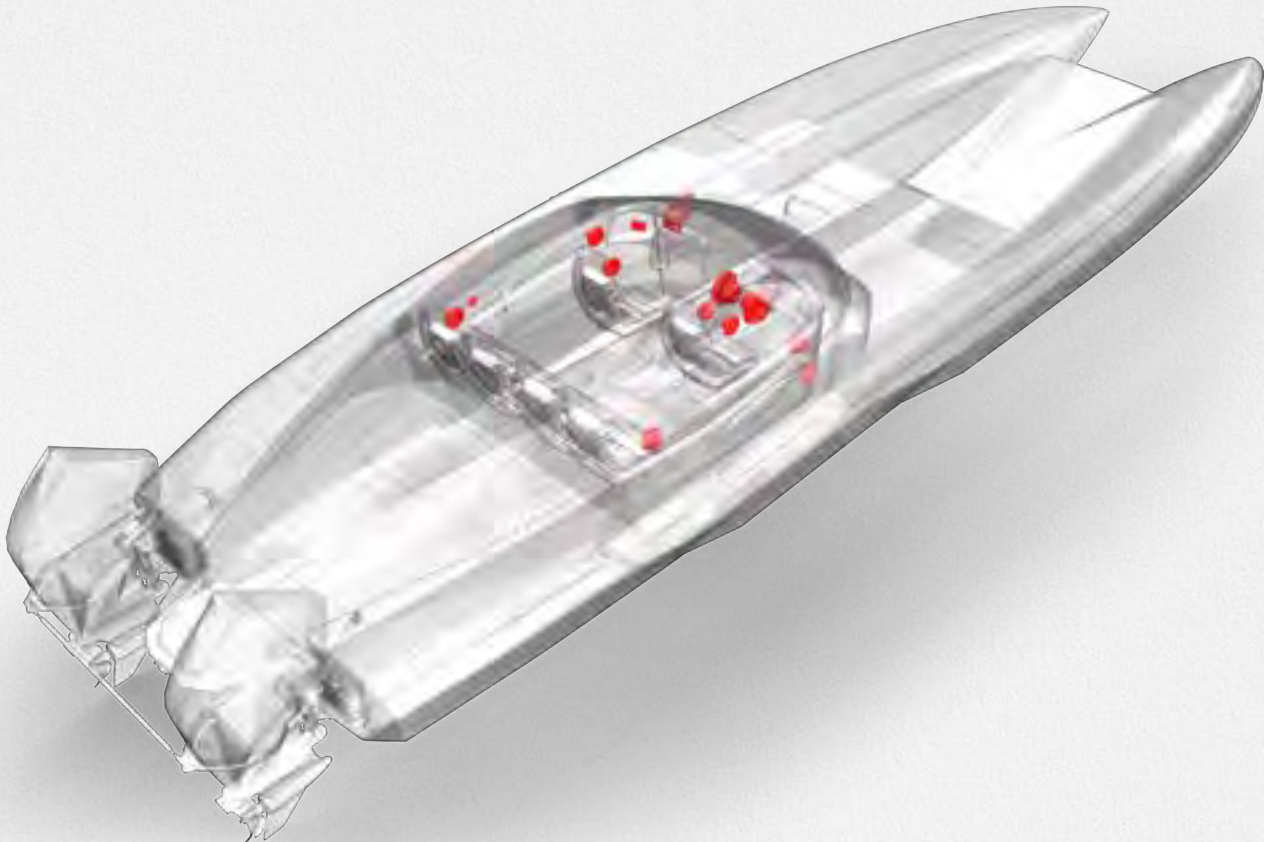

Source Units: (1)PMX-2/(1)PMX-1R/(1)PMX-USBP  
Speakers (Pairs): (2)M2-65B  
Amplifiers: (1)M2-300X4  
Add on's:  
Tower Package: (1)M2-300X4/(1)M2WL-65MB  
Color Optix Control: (1)PMX-RGB/(4)RGB CABLES  
Steering Wheel Remote: (1)PMX-BTUR

# SYSTEM OVERVIEW.

SYSTEM  
02

- Source Units: (1)PMX-8BB/(2)PMX-8DH/(2)PMX-1R/(1)PMX-USBP
- Speakers (Pairs): (4)M2-65
- Subwoofers: (2)M2D2-12I
- Amplifiers: (2)M5-1500X5
- Add on's:
- NMEA Adaptor for MFD Integration: (1)PMX-CAN
- Color Optix Control: (1)PMX-RGB/(10)RGB CABLES

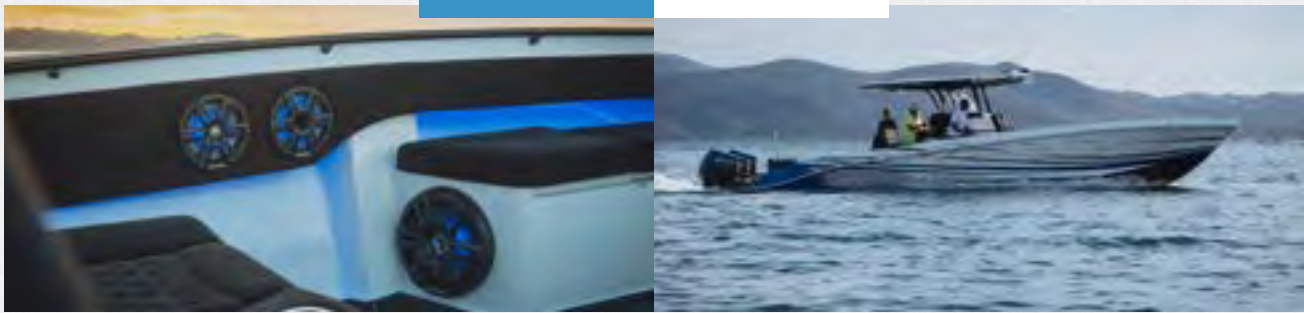

SYSTEM  
01

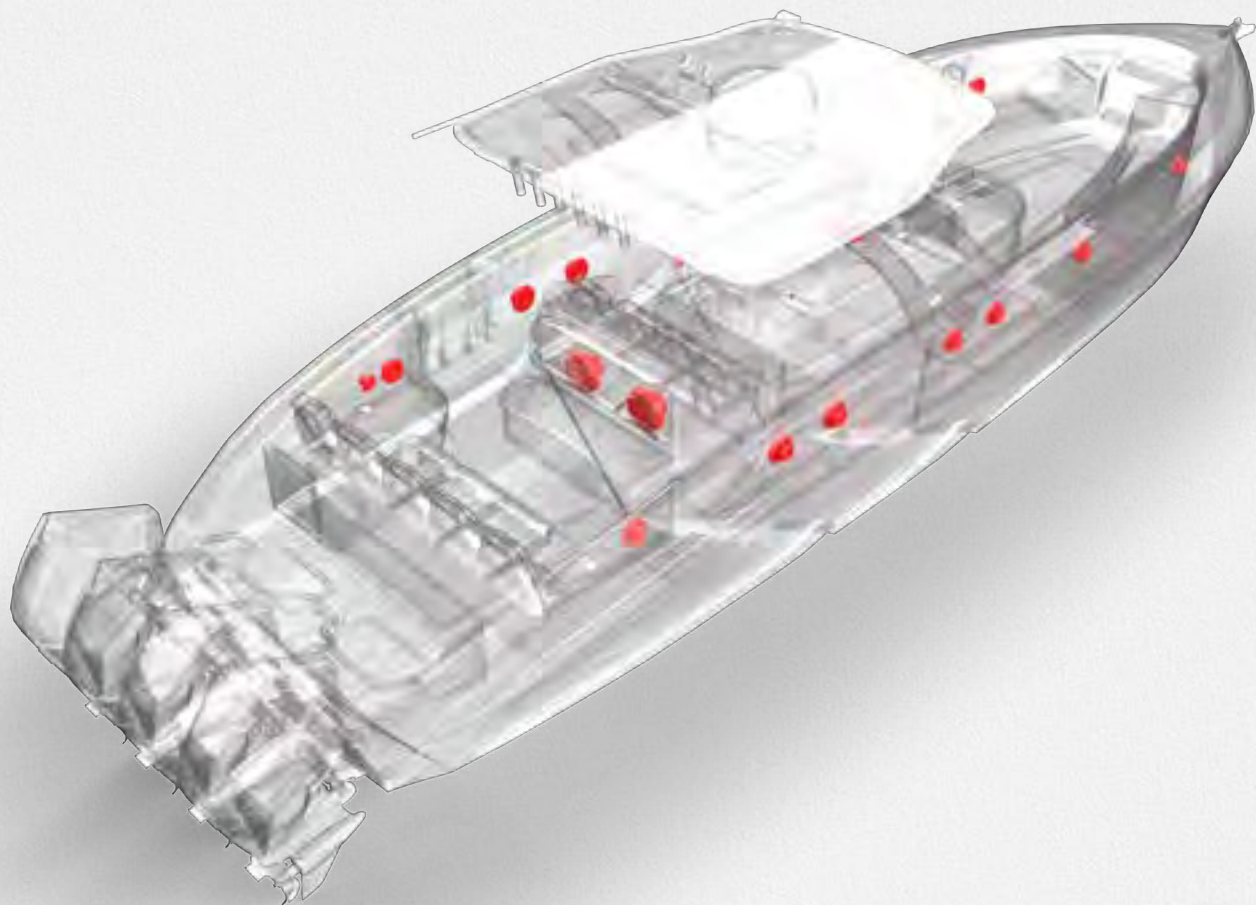

- Source Units: (1)PMX-8BB/(2)PMX-1R/(1)PMX-USBP
- Speakers (Pairs): (4)M1-65
- Subwoofers: (1)M1D2-12I
- Amplifiers: (1)M2-750X5
- Add on's:
- NMEA Adaptor for MFD Integration: (1)PMX-CAN
- Color Optix Control: (1)PMX-RGB/(8)RGB CABLES

CENTER CONSOLE

SYSTEM OVERVIEW.

SYSTEM  
02

Source Units: (1)PMX-8BB/(2)PMX-8DH/(2)PMX-1R/  
(1)PMX-USBP  
Speakers (Pairs): (4)M2-8/(2)M2-8H  
Subwoofers: (1)M2D4-12I  
Amplifiers: (2)M5-1500X5  
Add on's:  
NMEA Adaptor for MFD Integration: (1)PMX-CAN  
Color Optix Control: (2)PMX-RGB/(16)RGB CABLES  
Steering Wheel Remote: (1)PMX-BTUR

SYSTEM  
01

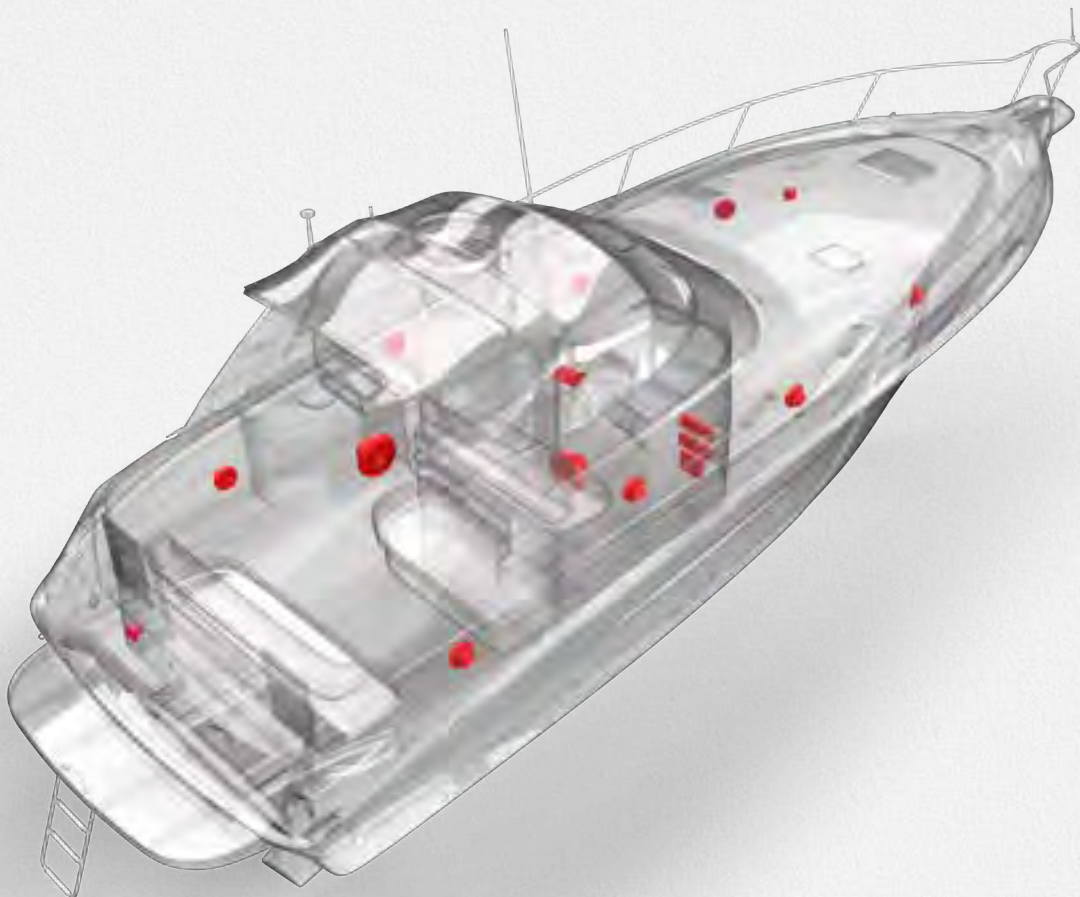

Source Units: (1)PMX-8BB/(2)PMX-1R/(1)PMX-USBP  
Speakers (Pairs): (2)M2-65/(2)M1-8  
Subwoofers: (1)M2D4-12I  
Amplifiers: (1)PM1000X5  
Add on's:  
NMEA Adaptor for MFD Integration: (1)PMX-CAN  
Color Optix Control: (1)PMX-RGB/(10)RGB CABLES  
Steering Wheel Remote: (1)PMX-BTUR

CRUISER

SYSTEM OVERVIEW.

SYSTEM  
02

Source Units: (1)PMX-8BB/(1)PMX-8DH/(2)PMX-1R/  
(1)PMX-USBP  
Speakers (Pairs): (3)M2-65/(1)M2-8  
Subwoofers: (1)M1D4-12I  
Amplifiers: (1)M5-1500X5  
Add on's:  
NMEA Adaptor for MFD Integration: (1)PMX-CAN  
Color Optix Control: (1)PMX-RGB/(8)RGB CABLES

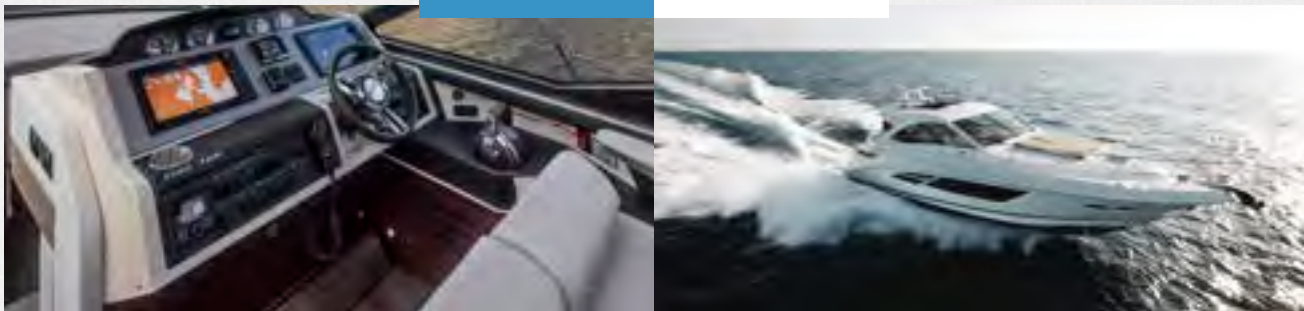

SYSTEM  
01

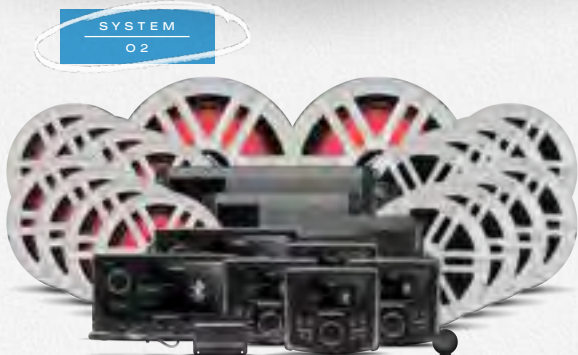

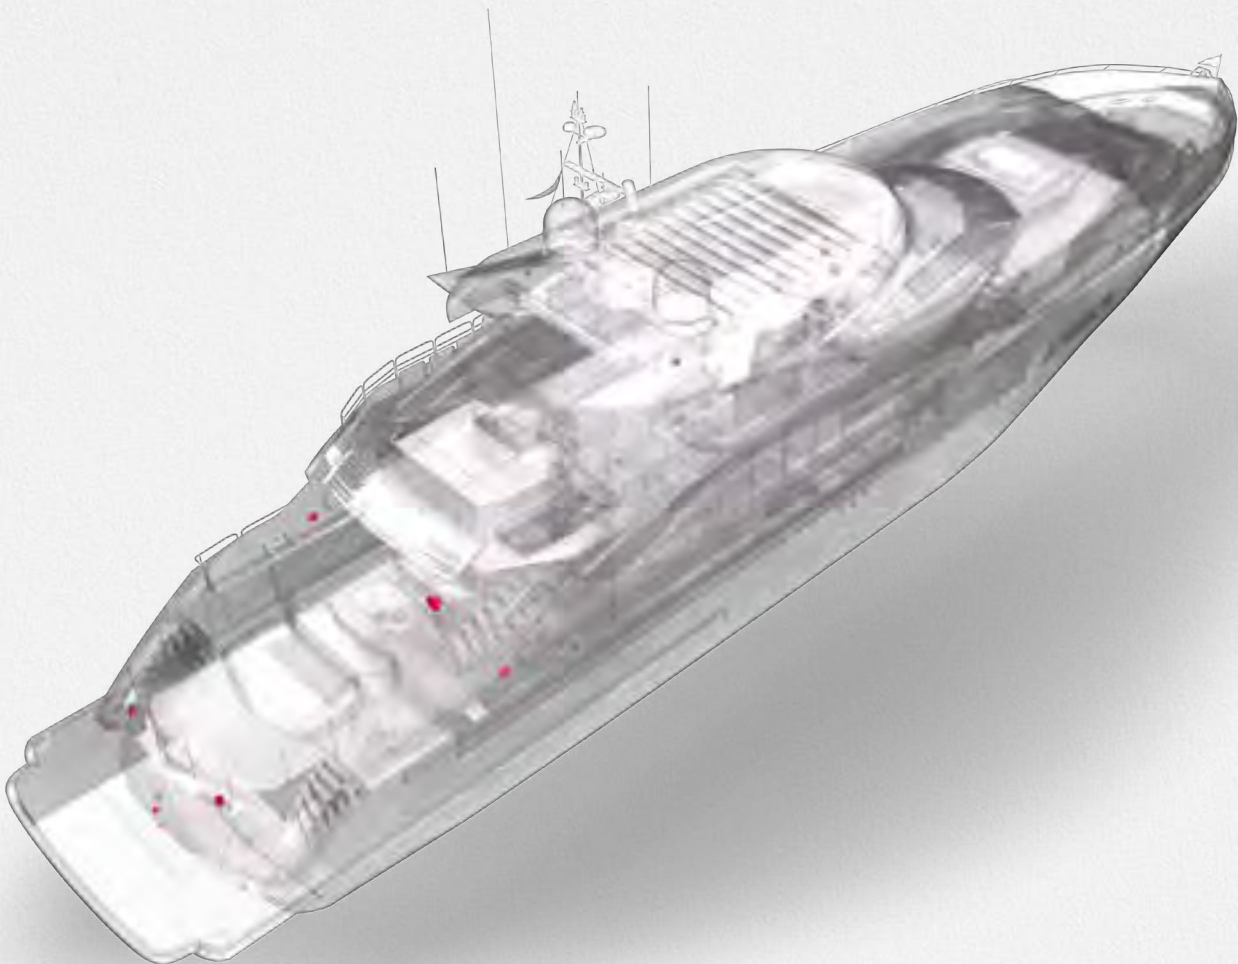

Source Units: (1)PMX-8BB/(1)PMX-8DH/(2)PMX-1R/  
(1)PMX-USBP  
Speakers (Pairs): (3)M1-65/(1)M1-8  
Subwoofers: (1)M1D2-12  
Amplifiers: (1)PM1000X5  
Add on's:  
NMEA Adaptor for MFD Integration: (1)PMX-CAN  
Color Optix Control: (1)PMX-RGB/(8)RGB CABLES

SPORT YACHT

SYSTEM OVERVIEW.

Source Units: (2)PMX-8BB/(2)PMX-8DH/(4)PMX-1R/  
(2)PMX-USBP  
Speakers (Pairs): (4)M0-65/(4)M2-65  
Subwoofers: (1)M2D4-12I  
Amplifiers: (1)M5-1500X5/(1)M5-800X4  
Add on's:  
NMEA Adaptor for MFD Integration: (1)PMX-CAN

Source Units: (1)PMX-8BB/(1)PMX-8DH/(2)PMX-1R/  
(1)PMX-USBP/(1)PMX-3/(2)PMX-1R  
Speakers (Pairs): (4)M0-65/(4)M2-65  
Subwoofers: (1)M2D4-12I  
Amplifiers: (1)M5-1500X5/(1)M5-800X4  
Add on's:  
NMEA Adaptor for MFD Integration: (1)PMX-CAN

# THE ROCKFORD DIFFERENCE

Adjust your own bright, wide, and limitless lighting experience with the Rockford Fosgate Color Optix™ plug-and-play controller and App.

Designed and engineered to match and compliment the factory fit and finish of your vehicle. These components are purpose built to the exact specifications to ensure the best-in-class fitment and look.

3DIL™ technology simply allows 360-degrees of rotation for the rear illuminated logo of all Moto Can speakers. No matter what angle you have them mounted everything was designed and engineered for the perfect fit and finish for your ride.

## RIDE COMMAND® INTEGRATION

Engineered for Polaris® Ride Command® to provide vehicle specific integration that requires zero setup while providing noise free audio playback. No tuning or tweaking needed. These systems are integrated seamlessly with Ride Command vehicles.

THE ROCKFORD DIFFERENCE

## PLUG AND PLAY

Designed with the user in mind, our audio kits are simple to install, and come with everything you need to hook it up right, the first time. Utilizing factory bolt locations, so don't worry about drilling into your new ride. Less time installing, more time riding.

## NO LOSS OF CARGO SPACE

Since space is at a premium in your side by side, we have designed our audio kits to deliver high performance sound without taking up precious cargo space. Our Subwoofer and speaker enclosures are custom-designed to fit in places that don't sacrifice cargo areas, all while still delivering Rockford quality sound.

## ELEMENT READY™

Simply put, our line of Element Ready™ products are built to handle whatever you can throw at them. Engineered from high-grade materials and put through intense environmental testing, this line is purpose built to stand up to dirt, dust, water and mud.

## BLUETOOTH®

With built in Bluetooth® connectivity, its easy to connect your smart phone and take your favorite playlist with you wherever you go. Just pair your Apple® or Android® device and you are ready to hit the trails or dunes.

### X317MAX-RSS

- (2) M2 10" DVC 4Ω Subwoofers/Enclosures
- M5 1000 Watt 1-Channel Element Ready™ Amplifier
- Amplifier Installation Kit
- Direct Plug & Play Into Existing Kits.
- 4-Seat Only

# SOURCE UNITS

.....

Developed from the ground up to not only be feature rich, but simple to use, our line of Element Ready™ source units provide you a solution no matter how large or small of a system you want to design. Using direct input from our customer base and our real world experience, our engineering team has created a lineup that delivers the features that you want in a package that stands up to the abuse of the off-road environment.

- + IP certified design guards against dust and moisture intrusion
- + Easy to navigate menu system
- + Easy to read displays, even in full sun
- + Feature rich designs to fit your lifestyle needs

## PRODUCT HIGHLIGHT

### PMX-3

The core for our motorsports kits, the PMX-3 offers best-in-class features including, Bluetooth™, SiriusXM, camera input, and ultra-bright screen for easy viewing in full sunlight. This unit is ideal if you are looking to add sound without additional amplifiers. Don't worry about getting it wet or dirty, this unit is IPX6 so it's built to stand up to the elements.

### PMX-2

The PMX-2 features a 2.7" full color TFT display for optimum viewing - even in full sun - that is optically wet bonded to prevent any dust or moisture penetration. It is IPX6 rated and uses a water resistant rotary encoder knob with white LED button illumination and front mounted sub level controls.

## PRODUCT HIGHLIGHT

### M5-1500X5

The M5-1500X5 amplifier features the next level of Element Ready™ design from Rockford Fosgate that's built as rugged as the outdoor environment it's used in. The IPX6 rating is provided by splash guards on both ends and heavy-duty molded harnesses with integral sealing gaskets.

### M5-800X4

The M5-800X4 amplifier features the next level of Element Ready™ design from Rockford Fosgate that's built as rugged as the outdoor environment it's used in. A new PRESET switch - for use with Rockford Fosgate UTV audio kits.

# AMPLIFIERS

Packed with power, our amplifiers are specifically engineered to perform out in the elements. With a full line of compact chassis mono and multi-channel options, all of our Element Ready™ amplifiers are equipped with features that put you in control of your audio experience.

- + CLEAN technology for a fast and accurate set-up
- + Efficient design for minimal electrical impact
- + Compact size for maximum space savings
- + Models ranging from 800 to 1500 watts

# SPEAKERS

.....

Open air off-road environments are harsh and can be devastating to audio speakers. That's why Rockford Fosgate designs its motorsports speakers with materials and build techniques that withstand dust, dirt, water and UV. They deliver high quality sound for you to enjoy every time you hit the trails or dunes.

- + Coaxial and tweeter options
- + High efficiency, high output design
- + Element Ready™ materials
- + Multiple sizes from 6.5" to 10"

## PRODUCT HIGHLIGHT

### M2WL-10HB

The next evolution of off-road audio, the M2 10" speakers create an unmatched audio experience, with class-leading output, Color Optix™ lighting, Deutsch™ and Amphenol™ connectors, for a true off-road plug and play ecosystem. Dial in your own color experience using the Color Optix™ Controller and RF Connect™ App from your smartphone.

*\*Available in white or black*

### M1-65B

The M1-65B Color Optix™ 2-way 6.5" speakers deliver loud, clear, accurate sound, and light the way for your journey! The speakers connect with the Rockford Fosgate Color Optix™ Controller and RF Connect App, allowing you to customize your own color patterns.

*\*Available in white or black*

## PRODUCT HIGHLIGHT

### **M2D4-12B**

A purpose-built off-road subwoofer. With that purpose of producing all out bass output on the trail. The M2D4 subwoofers feature Color Optix™ LED lighting, a Element Ready™ design and all the top of the line features you have come to expect from Rockford.

*\*Available in white or black*

### **M1D2-10B**

Loud, clear and accurate bass for any side-by-side. The M1D2 subwoofers can handle anything you throw at them, including Water, Mud, Dirt, and UV rays. When the sun sets, set the mood with the Color Optix™ LED lighting.

*\*Available in white or black*

# SUBWOOFERS

Rockford engineers its woofers to produce high output bass without crumbling when exposed to the elements. With a variety of sizes and styles available, you can easily build a system to complement your off-road vehicle.

- + Designed for high output capability
- + Torture tested to ensure long life and performance
- + Engineered for exposure to elements
- + Multiple sizes from 8" to 12"

# ACCESSORIES

.....

From amplified antennas to all-weather Bluetooth™ steering wheel remote, we have all the accessories to help take your playlist off-road.

- + PMX-BTUR - Bluetooth Universal Steering Wheel Remote
- + MX-CAM - Full Color Motorsports Camera for PMX-3
- + PMX-RGB - Color Optix™ Light Controller with Optional App Interface
- + PMX-USBP - Universal USB Port with Hinged Cover
- + PMX-ANT - AM/FM/WB Amplified 12V Antenna

## PRODUCT HIGHLIGHT

### MX-CAM

The MX-CAM is a perfect add-on for Stage5 and Stage6 Color Optix™ kits. The high-resolution color camera provides a crystal clear picture for backing-up or rock-crawling.

Wiring Kits Available For:

- 2014+ Polaris RZR
- 2017+ Can-Am X3
- 2018+ Polaris Ranger

*\*For use with PMX-3 source unit*

### PMX-RGB & RF Connect™ App

Color control at your fingertips. Enjoy being able to dial in any color experience on the trail with the RF Connect App™ and PMX-RGB wiring. Simple plug and play connectivity allows for an ultra simple installation.

*\*Available for IOS and Android*

# ELEMENT READY™

## EXPLAINED

Knowing your life isn't restricted to just your vehicle, Rockford has introduced a whole new line of "Element Ready" products. These products are built from high grade materials, and put through intense environmental testing. Whether cruising the asphalt on your motorcycle, hitting the trails in your UTV or relaxing on a sandbar enjoying the tunes from your boat, Rockford Fosgate's Element Ready™ products will ensure your music sounds as good as it does in your everyday ride.

## 2014+ SADDLE BAG SUBWOOFER KIT

### HD14-SBSUB

- M5 Series 800 Watt Amplifier
- (2) 10" Subwoofers with Enclosures and Cutting Templates
- Amplifier Installation Kit with Mounting Brackets, and Plug and Play Wire Harness
- For use with select HD14-STG2 and STG3 Audio Kits\*
- Compatible with Factory Bags Only
- Compatible with Current TMS Audio Systems

*\*Not compatible with bags equipped with factory electric locks*

*\*Refer to Full Fitment Guide at [rockfordfosgate.com](http://rockfordfosgate.com)*

### FLEXIBLE BASS SYSTEM

Sound when you want it, space when you need it. This patent pending design allows you to remove one or both subwoofers easily with no tools. So, if you need your bags for a long ride, this flexible system allows for just that.

### PLUG-AND-PLAY DESIGN

Designed to work right out of the box. The included wiring and cutting template make for easy installation, all to ensure less time in the garage and more time out riding.

### FULL THROTTLE BASS OUTPUT

Finally, bass for your bike. The dual 10" subwoofers and enclosures were purpose built for the motorcycle environment and deliver that on-road audio experience you've been waiting for, even at freeway speeds.

### ROCKFORD MOTORCYCLE ECOSYSTEM

Everything was purpose-built to seamlessly work with your existing Rockford Fosgate Harley-Davidson system. With a few simple connections this dual bass system integrates flawlessly.

# SOURCE UNITS

This factory replacement source unit was designed specifically for 1998-2013 Harley-Davidson® motorcycles. Easy installation, factory fit and finish, an ultra-bright 3 inch display and paired with class leading features makes this radio a legend right off the line.

- + Plug and Play design for easy installation
- + Bluetooth®, Pandora®, and SiriusXM® ready
- + Element Ready™ weatherproof design
- + Day and Night modes for easy viewing
- + Rated Power: 50WX4@ 2 ohms, 25WX4@ 4 ohms RMS
- + AM/FM, USB, AUX input

## PRODUCT HIGHLIGHT

### PMX-HD9813

The PMX-HD9813 is your audio fuel. Easy to install with its plug and play connectors and factory mounting points, and also lets you keep your factory thumb controls. The 50W x 4 internal stereo injects your speakers with plenty of power. To top it off, the unit is built to withstand the outdoor elements.

### PAUX

The PAUX allows for easy USB and AUX connectivity. It quickly installs and not only lets you play music, but also charges your device.

## PRODUCT HIGHLIGHT

### M5-800X4

The M5-800X4 amplifier features the next level of Element Ready™ design that's built as rugged as the outdoor environment it's used in. The IPX6 rating is provided by splash guards on both ends and heavy-duty molded harnesses with integral sealing gaskets.

### TM400X4ad

The Power TM400X4ad is an Element Ready™, 4-channel amplifier that packs some serious output in its compact design. The amp also features Rockford's C.L.E.A.N. technology, meaning it's easy to set up to maximize your sound.

*\*Road King Kits Only*

# AMPLIFIERS

.....

Packed with power, our amplifiers are specifically engineered to perform out in the elements. With a full line of compact chassis and multi-channel options, all of our amplifiers are equipped with features that put you in control of your audio experience.

- + C.L.E.A.N. technology for a fast and accurate set-up\*
- + Efficient design for minimal electrical impact
- + Compact size for maximum space savings
- + Dual Fan cooling design eliminates dangerous heat buildup\*
- + Models ranging from 400 to 800 watts

*\*On select models*

# SPEAKERS

Open air environments are harsh and can be devastating to an audio speaker. That's why Rockford Fosgate designs its motorcycle speakers with materials and build techniques that withstand dust, dirt, water and UV. They deliver that crank'd up clear sound even at highway speeds.

- + High efficiency, high output design
- + Element Ready™ materials
- + Multiple sizes from 5.25", 5"X7", 6.5" and 6"X9"
- + Frequency Response Customized for Harley-Davidson®

## PRODUCT HIGHLIGHT

### TMS57

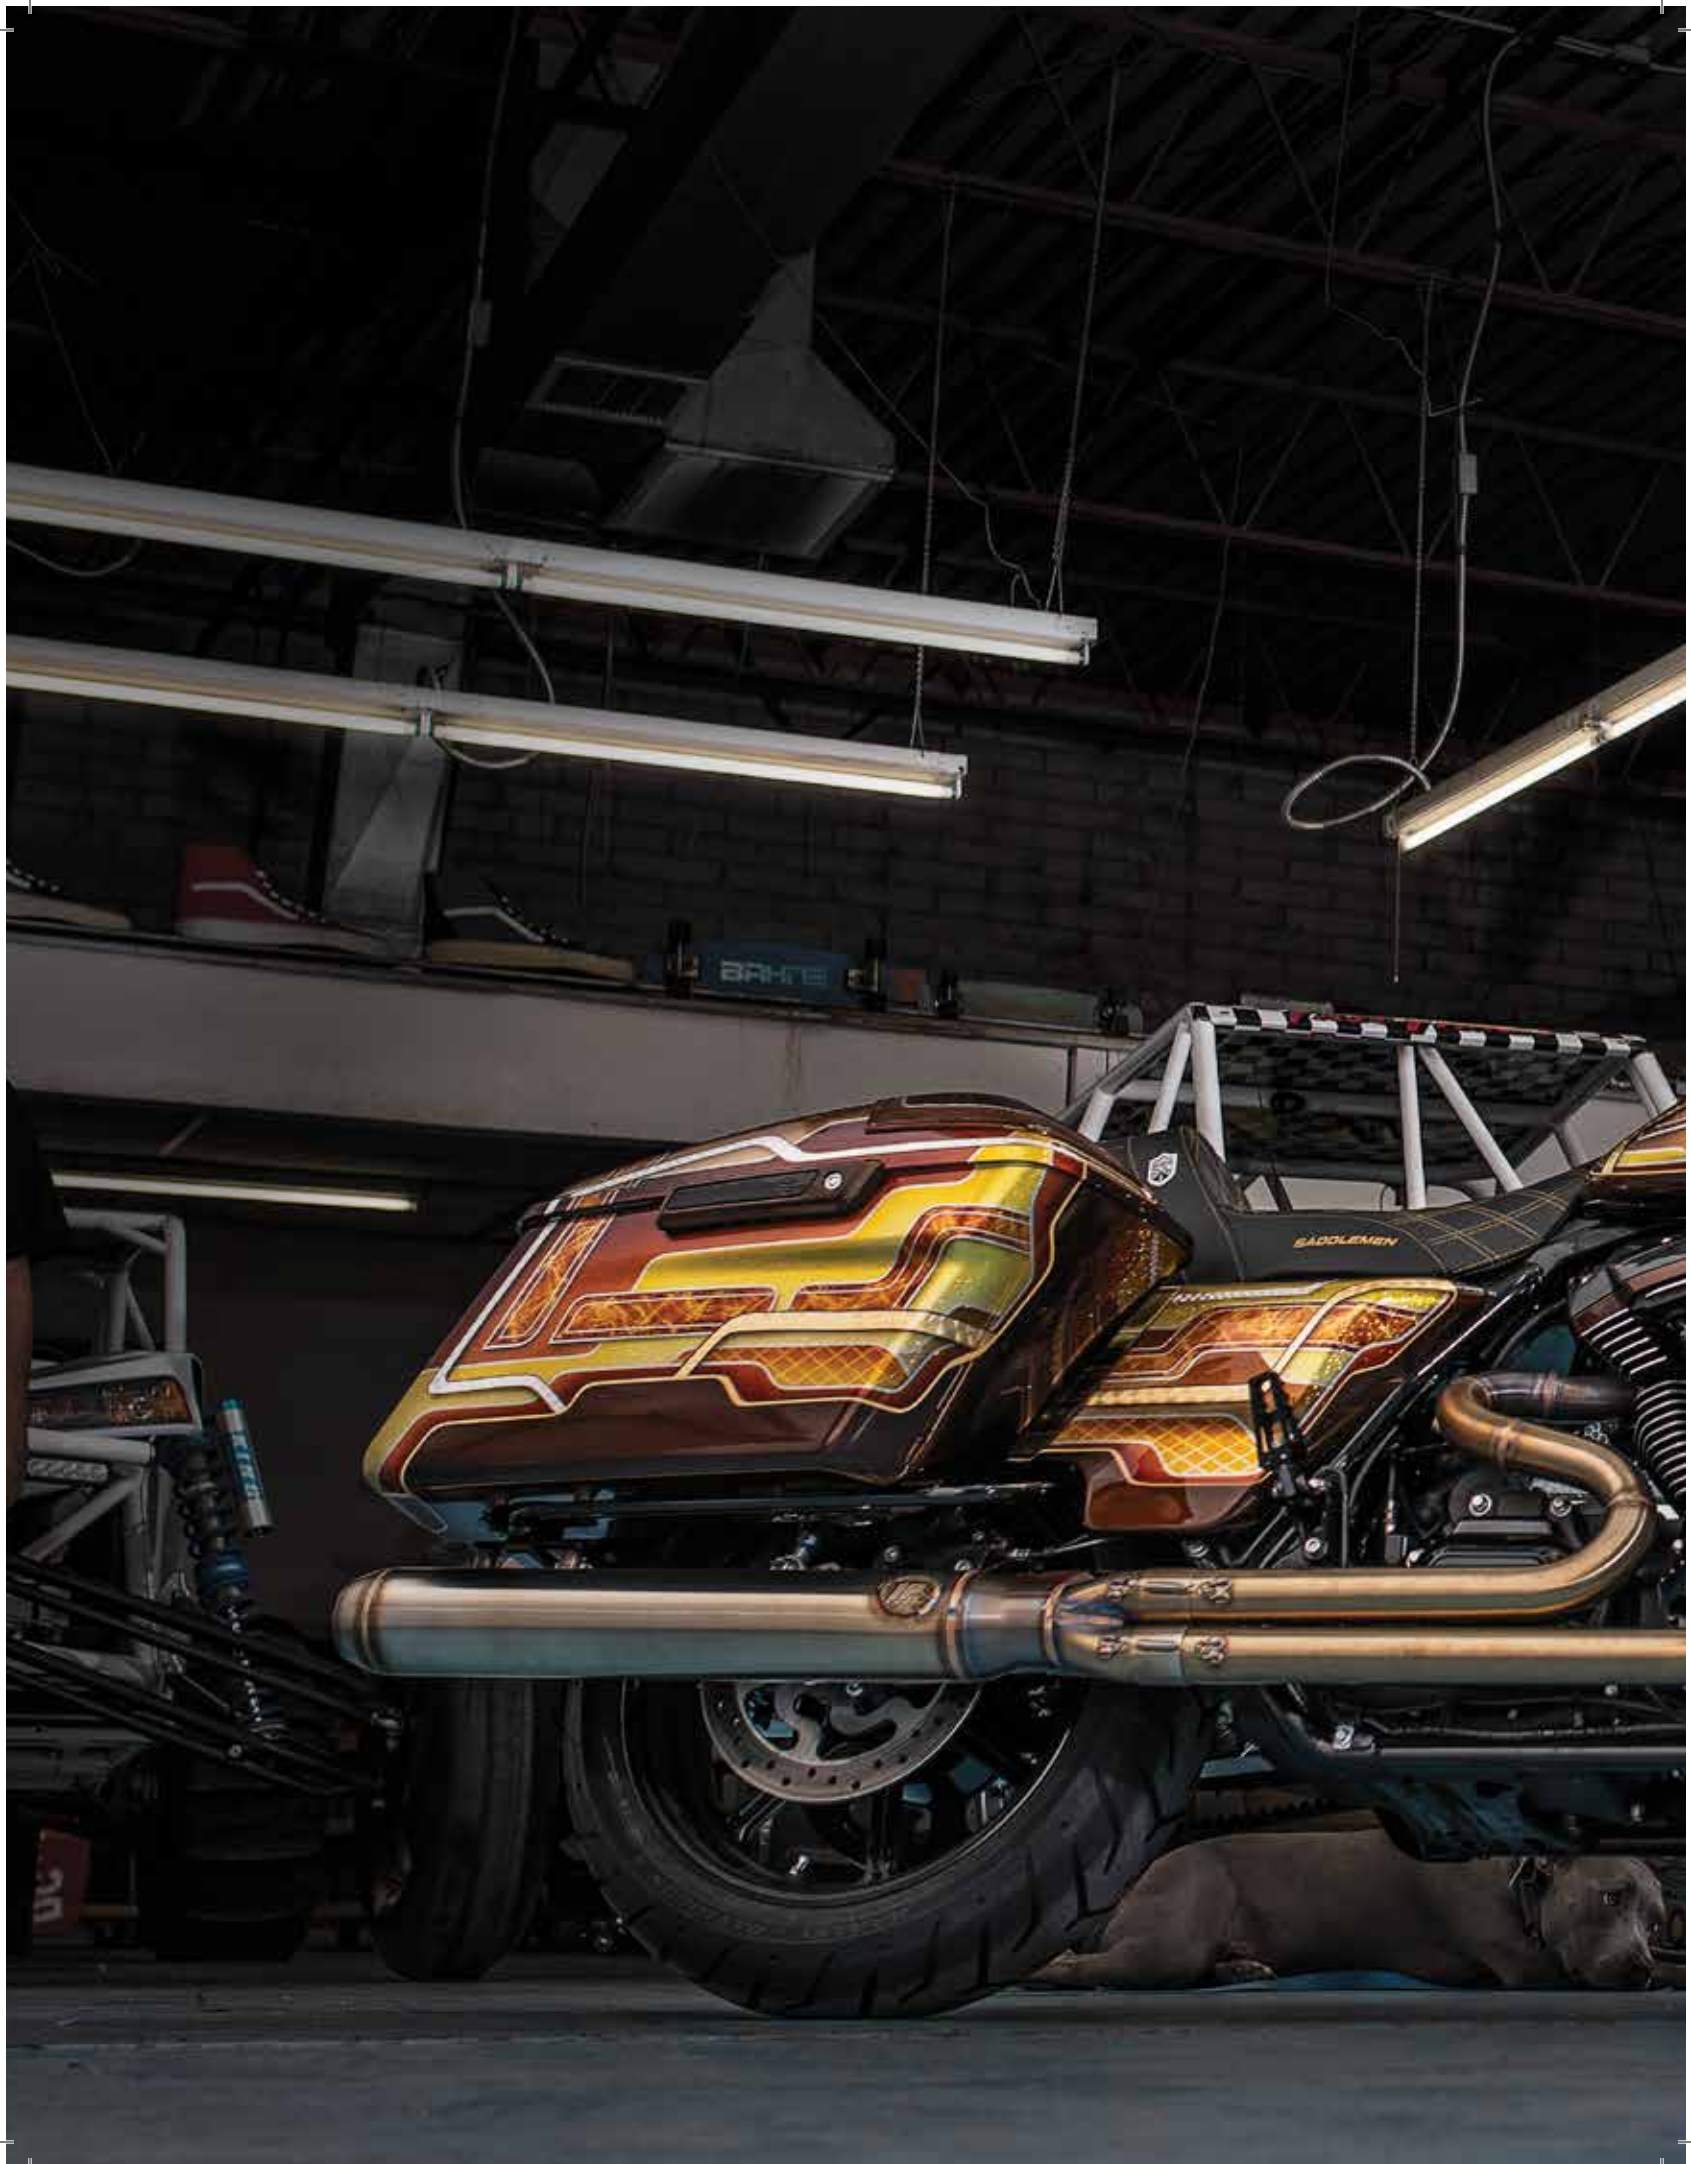

If your Harley-Davidson® already comes with bag lids, but you are in need of more audio output, drop these Power TMS57 replacement speakers in. Factory connectors make the installation fast and easy. These speakers can also be amplified, if you demand that next level sound. Purpose built to stand up to the outdoor elements.

### TMS69

Do you enjoy hitting the road but are tired of not enjoying your music because you can't hear it when riding? Then drop in these Power TMS69 low profile, 6X9's. Designed to not only deliver high output at highway speeds, these were also built to stand up to the elements, so no need to worry if you get caught in the rain.

.....

Rockford Fosgate strives to deliver the best audio experience no matter what you ride. Visit: [www.rockfordfosgate.com](http://www.rockfordfosgate.com) to learn about all the audio systems we provide.
